March 22, 2011

Congratulations on being nominated as a Chesapeake Family Favorite Doc

Judging from the Favorite Docs online Reader survey results so far, Arundel Physician Associates (Dr. Momeni and Dr. Robertson) is receiving many, many votes from our Readers... here's just a few of some of the comments he/she received! Voting continues thru the end of March.

- Dr. Momeni is always listens to my concerns and answers any questions I have. Unlike so many other doctors he is prompt so I am not waiting for my appointment very long.
Margaret Galles
- Fantastic interpersonal skills - talks to you at your level and makes you feel like your the most important person while you are there. His recommendations are clearly written and very easy to follow up. He has a great sense of humor.
- Dr. Momeni has been my husband's physician for many years. He always takes a personal interest in my husband who has had, and continues to have, many medical issues. Dr. Momeni has been consistently helpful, knowledgeable, persistent and enduring. He is approachable for any concern whatsoever. Once, in the absence of my own doctor, I was seen by Dr. Momeni myself, I can personally testify to his professionalism and to his caring nature which is evident in his doctor-patient demeanor.
- Friendly, courteous and professional. Takes time to thoroughly explain things to you. Always returns calls promptly when you have questions. Is very proactive.
- She is very professional, she takes the time to answers questions as well as asking questions. She digs into family history and is just generally concerned to get to the root of the problem.
- Dr. Robertson and her staff are the best that my family and I have met! Dr. Robertson takes time to listen and address all our concerns. She treats us like people, and always goes the extra mile. She always gets back in touch within 24 hours when we have questions.
- Dr. Robertson has always met and exceeded my family's expectations. She has worked late hours during week and on Saturdays to be available to her patients. She is up to date with the latest medical information and has equiped herself with the latest technology. She is the best of 2 worlds: The traditional caring physician and the sophisticated modern doctor all in one.

- I loved Dr. Momeni and used him first. When we changed insurance he didn't take we changed to his partner Dr Robertson. I thought I was losing my favorite doctor *and found* out she is just as good if not better. She really takes the time to listen to all our issues and really tries to get to the bottom of our issues.

Deadlines are starting to come up and I wanted to see if I can come in and talk to you for about 1/2 an hour to go over your options for:

1. The 2011 Big Book of Health
2. Chesapeake Family's May Issue which will include an in depth feature on Mommy Makeovers
3. Chesapeake Family's July issue which includes our Favorite Doctor winners!
4. Online marketing capabilities - with over 20,000 unique users each month, we have the 2nd most trafficked website in Anne Arundel county!
